ACTIVITIES

On August 2, 1969, it was discovered that Local Draft Boards 20-24 of the Selective Service System, 881 Gerard Avenue, Bronx, New York, had been entered sometime during the previous night by unknown individuals who vandalized the records of these offices, including destruction, cutting, tearing, and scattering many of the Selective Service files. A one-page, unsigned, typewritten statement was found after the vandalism

at the 881 Gerard Street address. This statement was a proclamation of protest against the military system which drafts Americans to kill and to die. The writer stated he wished "to liberate American youth from a vocation to death imposed by a leadership which speaks neither for us nor for the victims of the American military throughout the world. As men of conscience we will do our utmost to convey to our fellow Americans the truths implied by the military draft." The statement then went on to say, "We destroyed these licenses of death in the name of humanity. We shall appear publicly at a time and a place of our own choosing, bearing evidence of our support to submit before the law and to speak to men of good will." u

On the afternoon of August 21, 1969, eight individuals who called themselves "The New York Eight" held a press conference at the Overseas Press Club, 54 West 40th Street, New York City, New York. One male announced that he and seven other individuals were responsible for destruction of the Selective Service System files in the Bronx office on August 1, 1969, and in the Jamaica office, Jamaica Avenue, New York City, on August 15, 1969. u

An Agent of the Federal Bureau of Investigation (FBI) attended this conference where he gathered a copy of a handbill entitled, "A Statement of the New York Eight," and a three-page handbill entitled, "For Immediate Release." The "Statement of the New York Eight" declared that the eight individuals present were responsible for the disruption of the two Selective Service offices in New York. "On August 2, 1969, four of us destroyed

"draft board files at 881 Gerard Avenue, in the Bronx; and on August 15, 1969, the remaining four disrupted offices at 165-08 Jamaica Avenue, Jamaica, Queens." They stated the reason for their disruption of Selective Service files was because they were outraged at the continuation of the Vietnam War. In the handbill entitled, "For Immediate Release," the "New York Eight" again stated they were responsible for disruption of two local boards mentioned earlier, and they stated the reasons as being outraged at war and, in particular, the continuation of the Vietnamese War. In this leaflet, the New York Eight were named and described. Of the "New York Eight," there were two priests, at least two former nuns, a male urban worker, a Chicago organizer for an anti-war group, and a graduate student who claimed to be arrested ten previous times for peace and civil rights activities. The name of the subject appeared in this list as follows:

Age [] ; occupation - Teacher;
Schooling - Fontbonne Academy;

On August 23, 1969, a Special Agent (SA) of the Federal Bureau of Investigation, Chicago, Illinois, attended a press conference outside the Federal Building, 219 South Dearborn Street, Chicago, Illinois, sponsored by the Chicago Action Community (CAC). Approximately fifteen individuals attended this press conference. u

On numerous occasions, the CAC has described itself to the press media as a defense organization for the fifteen individuals indicted by the Federal Grand Jury, Northern District of Illinois, Chicago, Illinois, for violations of Title 18, United States Code, Section 1361, in connection with the burning of records at the Selective Service Area Headquarters, Chicago, Illinois, on May 25, 1969. u

During the course of the press conference, a three page statement was distributed to the persons in attendance and stated in part, "A group who call themselves 'The New York Eight' announced today their responsibility for the destruction of draft board records August 15, 1969, at a Queens Office, New York." u

A second leaflet was distributed to persons in attendance at the press conference and stated in part, "We the eight outraged Americans declare ourselves responsible for disruption of two Selective Service offices in New York. On August 2, 1969, four of us destroyed draft board records at 881 Gerard Avenue, Bronx, New York; and on August 15, 1969, the remaining four at 165-08 Jamaica Avenue, Jamaica, Queens, New York." u

A copy of this message was furnished to the FBI in Philadelphia. In this message entitled, "Principles of Organization," [redacted] stated as her thesis that "One learns how to organize a community by reflection on the errors one has made through the process." [redacted] then describes in detail two apparent attempts at entering a Selective Service Board office in a diary-type narration. In the beginning of her narration, she mentions that all were at a picnic on Sunday and two members of the group had a "cloak and dagger scene" outside. Then [redacted] received a message to drive one of those two males, together with [redacted] to a motel "and rent a room under such and such a name." "Everyone knew but no one knew what was taking place and security led to misunderstanding and bad feelings." [redacted] then described a meeting that night with some of the persons from the picnic. (Apparently it was at that motel room rented by subject and a male friend.) [redacted] wrote, "We discussed the guard and our decisions to confront him" and in general about plans to enter a Selective Service Office and how to "surface." By surfacing is meant the act of disclosing the names of the participants in the break-ins through public appearances or press releases. u

Father PHILLIP BERRIGAN was one of six persons indicted January 12, 1971, by a Federal Grand Jury, Harrisburg, Pennsylvania, and charged with plotting to kidnap a Presidential Advisor, HENRY A. KISSINGER, and to blow up the heating plants of Government buildings in Washington, D.C., during February, 1971. BERRIGAN is presently serving a six-year sentence in the United States Penitentiary at Danbury, Connecticut, for destruction of Selective Service records in Maryland. U

KISSINGER, and to blow up the heating plants of Government buildings in Washington, D.C., during February, 1971. U

On November 23, 1969, the Sunday Magazine Section of The Boston Herald Newspaper, Boston, Massachusetts, published

an article entitled, "The Nuns Who Turned Peace Agitators." This article claims to be a personal interview of subject and another former nun. The following is a synopsis of the pertinent parts of that article regarding subject: U

When JOAN DONATO was known as Sister MARIE NICHOLAS, she was a nun in the order of St. Joseph and her world was the schoolroom, the chapel, and the order. After leaving the order, her world was the peace movement, the picket line, the protest march, and recently - a grand jury session. She knows about grand juries, because last August she ransacked Selective Service files in New York City to protest the Vietnam War. A federal grand jury is investigating. U

JOAN is living at 177 Harvard Street, Dorchester, Massachusetts, as part of the "Bread Community." The "Bread Community" has no specific mission "except living together in Christian joy and trying to help people." U

JOAN believes the Church (Roman Catholic) has proven itself irrelevant to meeting the needs of the people. She is convinced the church, as an organization, can never be an effective catalyst in accomplishing the social reform she considers important. u

"JOAN believes the United States is in Vietnam for its own economic interest and that the news media and the government have created and perpetuate the myth that the reason we are there is to hold back communism. She believes that political pressure from forces benefiting day by day on a dollar basis from Vietnam shapes our policy there. She believes economic factors are involved, but that they are tied to the idea that America has to come off 'top cookie, to save face, that it is inconceivable for a big power like us to surrender.' " u

When asked about marriage, JOAN answered, "What I want in life is to be free and if there's a person who wants to share that freedom, then there will be a marriage for me. But it will mean that both of us intend to live our lives kind of on a precipice and that we both want to work our whole lives in the peace movement, where people need representation, where we believe the church should be. u

"Joan Donato, who wants to be free, talked calmly about going to prison. She knows it may happen. Perhaps a two-year sentence. But, after the discipline of the convent, federal prison won't be so bad." u

Dear Mr. Jamieson:

I have your letter of April 30, 1971, in which you state that you have caused to be made a "thorough inquiry" into the allegations of [redacted] and in which you deny the allegations of improper conduct on behalf of the FBI. As you know, I have written to the Attorney General requesting a thorough and impartial investigation without resort to the FBI.

As you further know, [redacted] his wife and a friend were interviewed directly by members of the press concerning their contacts with the FBI. I suggest that the FBI agents involved also subject themselves to examination by the press so that the public may have the benefit of their version of what happened. I further suggest that you make available both to me and to the press the results of your "thorough inquiry".

[redacted] has reported to me that the overt acts of harassment have stopped. However, the question of wire tapping and electronic surveillance remains open. As you know, [redacted] has said that FBI agent [redacted] admitted that the FBI was tapping the [redacted] phone. There were other admissions to the same effect. Accordingly, we make two requests: (1) that the tap be removed at once, and (2) that [redacted] be removed from the [redacted] phone.

INFORMATIVE NOTE

Date 4/29/71

Attached summarizes current developments relating to demonstrations being sponsored by Peoples Coalition for Peace and Justice (PCPJ), Washington, D. C. *u*

Most significant information is that so-called Citizens Commission to Investigate FBI announced press conference for 7:00 p.m., 4/29/71, at which time members of group will publicly assume responsibility for Media Resident Agency burglary. We are instructing informants to cover press conference. *u*

Washington Field Office previously advised that attempts are being made to have as many as 2,000 people converge on Justice Building 4/30/71. The May Day Collective is working hard to get crowd which they hope will range from 50,000 to 300,000 persons to demonstrate over weekend of 5/1-2/71.

Information in attached and that reported previously will be included in summary to White House, Vice President, Attorney General, Defense Intelligence Agency and Secret Service. It will also be given to Inter-Division Information Unit and Internal Security Division of Federal Department of Justice. *80-1227*

PREDICATION:

Sister [] has been publicly identified as a member of the "East Coast Conspiracy to Save Lives" (ECCSL). This investigation of Sister [] was instituted in connection with her participation in ECCSL activities. u b6 b7C

The ECCSL is a term used to describe a group of individuals opposed to the Vietnam War and the Selective Service System, some of whom have publicly admitted acts of destruction of Selective Service records in various cities of the United States. u

On February 14, 1970, at the Federal Building, Philadelphia, Pennsylvania, a group identified as "The Quaker State Conspiracy" held a rally. Eleven individuals were observed by Special Agents (SAs) of the Federal Bureau of Investigation (FBI) going to a microphone at this rally and a spokesman stated that they were members of the "East Coast Conspiracy to Save Lives," and that they were the ones who had destroyed draft board records in Philadelphia, Pennsylvania, on February 6, 1970, and General Electric records in Washington, D. C. (WDC), on February 7, 1970. A leaflet entitled "East Coast Conspiracy to Save Lives" which was being distributed at the rally, contained a photograph of the eleven individuals claiming to be a part of this group and to have been involved in the above-described destruction. The leaflet also listed the eleven individuals involved by name and description. One of those individuals listed was [] whose description was as follows: u

"SUSAN CORDES, O.P., 32, member of the Dominican Sisters of Grand Rapids, Michigan. Has taught in secondary schools in Michigan. Presently a director of the St. Joseph Adult Education Program in Saginaw, Michigan."

EAST COAST CONSPIRACY TO SAVE LIVES

(u)

As American citizens who share a responsibility for the actions of our country, we have liberated draft files in Philadelphia, Pennsylvania, and General Electric files in Washington, D.C. We have done so because of our concern for human life. We have done so because we are aware of the conspiracy among the military, large corporations and the United States government. We have done so because of the need for serious and continuing resistance to the racist and militarist institutions operating in the United States. And we have done so because through our acting we have found a new life style which offers opportunities and hope, for ourselves and others.

We have destroyed draft files, pieces of paper, because those pieces of paper mean slavery and possible death for young Americans and certain death for Vietnamese and other non-white people of the Third World. The draft is an

instrument of murder and as such it must be stopped. It is no accident that the boards we have acted against are inner city boards. Blacks, poor whites, and working class whites - those society treats the worst - are forced to do most of the fighting and dying in America's wars, since American racism destroys their free choice. This racism fosters a type of frustration which is at the root of our deteriorating society. We specifically reject the racism that sends its victims in highly disproportionate numbers onto the front lines of battle. If they return to the U.S., they find themselves oppressed by the same racist society which sent them to war. The fight for freedom is at home, not overseas. U

We have destroyed General Electric files because G.E. is the second largest war contractor in the United States because G.E. exploits its workers both at home and overseas, and because we wish to point out the collusion between the military system, giant corporations and government. The three are inseparably wedded to one another. U

As the American people continue to pay taxes to the government, that money subsidizes giant corporations, mainly in the form of war contracts. The Selective Service System and the military are used to protect an expansionist economic system which obtains growth and control at the expense of human lives. At the same time, the Selective Service System channels young men, through the use of deferments and the threat of being inducted if a deferment is lost, into present-day American society as cogs in a vast inhuman machine. U

We have acted against General Electric because we feel a responsibility, as victims of a system which places profit above life, to confront institutions of death. The butchery these institutions perpetrate on ourselves and our brothers in the name of patriotism is abhorrent to men of conscience. U

We have acted taking care that no individual was hurt by our actions. We believe in the use of tactics which do not heighten the fear and distrust which are so much a part of the present ugly way of life in America. We are committed to a non-violent revolution against injustice. This means a non-violence of effective and continuing disruption of the machine of death and oppression in America. This means a disruption which destroys certain property when that property is used to destroy men, women, and children. As the Catonsville 9 said, "Some property has no right to exist. Hitler's gas ovens, Stalin's concentration camps, atomic-bacteriological-chemical weapons, files of conscription and slum properties have no right to exist." U

We are a group of priests, nuns, students, teachers, and former students. We wish to confront by our actions those institutions with which we are affiliated - church and education - and to force them to decide whether or not they will continue to serve the needs of American power or begin to serve the needs of man. U

We have acted at the same time that three major political trials are going on in the United States: The conspiracy 7 Trail, the D.C. - 9 Trail, and the New York 21 Trail. We express our solidarity with those three groups, as well as with the Black Panther Party, those who have acted against draft boards prior to us, and other victims of government repression. We believe that the best defense against repression is a continuation of actions similar to ours and a rapid growth in the movement seeking an end to racism, militarism and capitalistic imperialism. With the Beaver 55 we say "These actions must continue; the spirit of the people will not be overcome." U

PHILADELPHIA STATEMENT, February 6, 1970

Today, February 6, 1970, out of love for our fellow man, we have entered draft boards in Philadelphia, Pennsylvania and have destroyed draft files. We have done this as an act of resistance to the War in Vietnam but also as an act of resistance to the machine of death and oppression that operates in the country. Put more simply, we have taken this action because of our concern for human life. u

In the near future at an appropriate time we will reveal our identity to the American people. We will do so with feelings of hope, trust and faith that they will come to understand, approve of and continue these acts of non-violent disruption of the death system. u

WASHINGTON STATEMENT, February 7, 1970

Today we have entered G. E. offices in Washington, D. C. and have liberated and destroyed files of the G. E. corporation. We are the same group of people who last night destroyed draft files in Philadelphia, Pa. We have taken this action to disrupt the functioning of the machine of death and oppression - draft files which conscript men to kill and the files of G. E., the nation's second leading producer of armaments for the U.S. government. We want to say by our actions that we will not tolerate the destruction of human life, and that we are willing to accept responsibility for the lives of our brothers. In doing so we find joy, meaning, and a way to express our love for our fellow man which responds to the urgency of today's situation. u

With the D.C.-9, who are currently on trial in Washington, with whom we express solidarity, "We urge all to join us as we say 'no' to this madness." u

On November 30, 1970, the Associated Press Wire Service carried an announcement which stated the ECCSL would hold a press conference at St. Stephen and the Incarnation Church, WDC, at 11:00 a.m. on November 30, 1970. u

SAS of the Washington Field Office (WFO) covered an ECCSL Press Conference held on November 30, 1970, at St. Stephen and the Incarnation Church, 16th and Newton Streets, N.W., WDC. Approximately 30 members of the Press were present. u

Sister SUSAN CORDES opened the press conference. She said due to distance and other factors only six of the eleven members of the ECCSL could be present. She proceeded to read a press release which began with "We are here to respond to the charges of J. EDGAR HOOVER... that the East Coast Conspiracy to Save Lives is plotting to kidnap a government official and blow up power facilities in Washington." The statement continued with "There is only one East Coast Conspiracy to Save Lives. That is a group of eleven people that came to act out of conscience against the war in Southeast Asia in early February of this year". She referred to the ECCSL flyer which was distributed on February 14, last, claiming responsibility for destruction of draft files in Philadelphia and disruption of General Electric Offices in Washington, D. C. She stated that since that time "we" have continued active unarmed resistance. She spoke of the dangerous misuse of power by those in positions of power in America. "One of us, TED GLICK, is now on trial for the destruction of Selective Service, United States Attorney and FBI files in Rochester, New York". She said "We here claim that while we are friends and deeply respectful of the BERRIGANS, they are not our leaders". She stated the Director's charge against "us" is an attempt to instill in "us" and others a paralyzing fear, and we refuse to be so paralyzed. "We reaffirm our commitment to a radical restructuring of our society by attempting to awaken the conscience of America." u

WFO 100-52950

Following the reading of the aforementioned press release CORDES read the first two paragraphs of the ECCSL pamphlet distributed last February 14, claiming responsibility for the previously mentioned actions. U

PETER FORDI then took over during question and answer period. He introduced each member of the group, stating that Sister SUSAN CORDES is a member of the Dominican Order from Grand Rapids, Michigan. U

Following the press conference SAS of WFO observed the group return to 1529 Corcoran Street, N.W., and enter that residence. U

On December 19, 1970, SAS of the FBI, observed an anti-war vigil sponsored by ECCSL. The vigil was held at L'Enfant Square, WDC. U

Among those individuals participating in the Vigil were Father RICHARD BIDWELL, ADELAIDE MILLER, an attorney in WDC, DAPHNE HOFFMAN, from WDC, Father RICHARD MC SORLEY, S.J., from Georgetown University, Sister SUSAN CORDES. U

The vigil consisted of participants reading from the Bible and sitting in circles. U

A homemade cross was displayed. The cross is surmounted with a circle and in the circle is the broken cross peace sign. The arms of the cross contain the words "Peace, Joy, Love for All." A cloth banner bore the slogan "Conspiratus one in spirit". U

(On February 8, 1971, WF T-2 advised as follows: U (u)

Four members of the "Berrigan Committee" were scheduled to speak at Princeton University, Princeton, New Jersey, at 8:00 p.m., on February 10, 1971, in the

WFO 100-52950

University Chapel: They were invited to speak by [redacted]
[redacted] Dean of the University Chapel, who was to have
them to his home for dinner before their appearance. They
were to speak on their views of the recent charges made
by the Federal Government. Their names were [redacted]

[redacted] a Jesuit priest, [redacted]
a Josephite priest and a Negro, [redacted] a nun
from Notre Dame, WDC, and [redacted] a graduate
student at Mount St. Agnes, and a nun. J

WFO 100-52950

WF T-4 advised that on February 22, 1971, [] appeared at the Siedman House Pit on the campus of Grand Valley State College, Allendale, Michigan, and spoke for approximately one hour. Her speech concerned Fathers PHILIP [] BERRIGAN and others who had been indicted and charged with conspiracy to blow up heating ducts in government buildings in WDC, and to kidnap Presidential Aide HENRY KISSINGER. [] stated that the BERRIGANS do not believe in the use of bombs or in kidnapping as a political tool. She is of the opinion that the United States Government is using the charge of conspiracy only to prohibit free speech in the United States, and that the charges were fabricated by the United States Government to break the back of the peace movement. [] stated that she is on a year's leave of absence from teaching, and that she is still a nun. *u*

b6
b7C

WF T-5, advised that on February 23, 1971, from approximately 12:20 p.m. to 1:15 p.m., [] and approximately 60-75 other persons gathered in front of the entrance of the Federal Building, Grand Rapids, Michigan, and held a short prayer and sang songs to get support for Fathers PHILIP [] BERRIGAN. *u*

On February 25, 1971, WF T-6, advised that Baltimore telephone number 366-1320 is listed to the Conspiracy Defense Committee, 530 East 22nd Street, Baltimore, Maryland. *u*

On March 9, 1971, a representative of the FBI made a suitable pretext telephone call to the headquarters of the aforementioned committee which was answered by [] [] identified herself as one of the original members of the ECCSL. [] advised that captioned organization is primarily interested in the defense of the Harrisburg Six, and its secondary interest lies in the anti-war movement. [] advised funds are obtained through voluntary contributions and through a speakers bureau. She added

WFO 100-52950

that the committee has five other committees which number approximately ten to fifteen members each, but there are no elected officers. [] further added that the organization does need publicity. u

MEDBURG

Re Seattle letter to the Director dated 4/28/71.

The documents forwarded to your office by [redacted] have been reviewed and do not relate to the Media, Pennsylvania, Resident Agency burglary.

b6
b7C

A review of Bureau indices reflects [redacted] was a subject of an internal security investigation by your Division, Seattle File Number 105-6138.

The names contained in these documents were searched through Bureau indices reflecting that [redacted] was formerly a member of the Communist Party in New Orleans, Louisiana, in 1949. She was interviewed by Bureau Agents in 1965, and it was determined that she was no longer affiliated with the Communist Party.

The name, [redacted] typed at the top of one of the enclosed pages forwarded by [redacted] is [redacted]. No other identifiable information was located on the other names due to the limited amount of background information.

Specimen Q250 was the only document among those submitted by Boston that was stapled.

Specimens Q294 and Q296 were the only documents among those submitted by New York that were stapled. Specimen Q296 contained two staples.

The staples in the above documents were flat wire staples of the Swingline SF-1 type for use in standard office staplers. Some of the questioned documents previously submitted were stapled with staples of this type.

It was not possible to identify the staples in Q250, Q294 and Q296 with any of the staples from questioned documents previously submitted. The two staples in the Q296 document were identified as having been stapled by the same stapler.

Comparisons between the staples removed from questioned documents and the staples removed from documents representative of known copiers are continuing. To date, no identifications between questioned and known staples have been made.

 PAPER 80-1227

A review of PHfile 15-24004 entitled "UNSUB; THEFT OF 15 CASES OF CANNED MEATS FROM FOX TRANSPORTATION COMPANY, WASHINGTON, D. C., 12/2/70, TFIS, OO: WFO," WFOfile 15-6126, shows that two original FD-302's are missing from the Philadelphia file which were not charged out and are presumed to have been stolen in the captioned burglary. One FD-302 contains the results of an interview of [] at Clifton Heights, Pa. The second FD-302 is not described in the Philadelphia file but apparently concerns the obtaining of a bill of lading or other papers relating to the shipment.

Nine copies of the FD-302 interview of [] were forwarded to WFO by Philadelphia letter to WFO 1/14/71. Nine copies of the other FD-302 were forwarded to WFO by Philadelphia letter to WFO 1/25/71 along with xerox copies of documents listed in that FD-302.

WFO is requested to immediately furnish the Bureau with six copies of both FD-302's and the enclosures to the second FD-302 and to furnish Philadelphia with two copies of each item.

Enclosed herewith are five packets of Xerox copies
of copies of documents taken from the Media RA. These packets
were turned over this date to SA [redacted] by [redacted]
[redacted] of Rich, May and Bilodeau, 1 State Street, Boston,
Mass. This firm represents the Record American-Sunday Advertiser. u

Also enclosed herewith are four envelopes addressed
to [redacted] Boston Globe, Boston, Mass., which were made
available to SA [redacted] by [redacted] on
the afternoon of May 5, 1971. Envelope No. 1 bears the postmark
Philadelphia, Pennsylvania, and date March 9, 1971 PM;
envelope No. 2 bears the postmark Wilmington, Delaware, and
date April 22 PM; envelope No. 3 bears the postmark Philadelphia,
Pennsylvania and date April 9 AM; envelope No. 4 bears the post-
mark Philadelphia, Pennsylvania, and date March 22 PM. u

For the information of the FBI Laboratory, [redacted]
[redacted] was recontacted at the request of SAC MOHR by SA
[redacted] on May 6, 1971, and asked if he was aware which of
the above envelopes contained the original document on which
[redacted] wrote an article in the Boston Globe April 27, 1971.
(Bureau is in receipt of the article and original document has
been previously furnished to the FBI Laboratory for examination.)
[redacted] stated that he assumed that the original document
was mailed in the envelope postmarked April 22 Wilmington,
Delaware. He makes this assumption based on the fact that
[redacted] told him he received the document on April 26 and wrote

REQUESTS OF FBI LABORATORY

Latent Fingerprint Section

Will process enclosed packets and envelopes for latent prints. It should be noted that [] stated that all four envelopes had been handled by many people at the Boston Globe. [] stated that the packets had been handled by people in his firm in addition to those with the Record-American. It is suggested that any latent prints be compared with those considered prime suspects by Philadelphia in this investigation. U

Document Section

Will examine all the material submitted in an effort to identify any of the subjects in this case. Will carefully scrutinize the cover letter to each packet for the purpose of determining the identity of any of the subjects in this case. Results of examination should be forwarded to Philadelphia and Boston. Neither [] nor [] have requested that these documents be returned to them. Therefore, after examination, they should be returned to the Boston Office to be maintained as evidence in this case. U

[] stated he was not making available the envelope that these packets were mailed in or the cover letter which was addressed to [] until such time as he receives written authority to do so from []

Re: MEDBURG

Date: May 13, 1971
FBI File No. 52-94527-1647
Lab. No. D-710511003 LC

Specimens received 5/10/71

K4765 Twenty-four items obtained from search of automobile of
[redacted]K4766 Thirty items obtained from search of automobile of
[redacted]

Result of examination:

The original typewriter impressions on the specimens, K4765 and K4766, were not prepared with the questioned typewriters used in the preparation of specimens previously submitted in this case. The copies which are part of K4765 and K4766 are not sufficiently legible for a detailed typewriter examination to be made.

It was determined that the hand printing on specimens K4765 and K4766 was not prepared by the writer of the questioned hand printing on Q48 and Q49, previously submitted in this case.

The submitted evidence will be returned separately. This material was not photographed.

During the course of this investigation of the East Coast Conspiracy to Save Lives, the Laboratory received a diagram of a Selective Service Office which was cased prior to being raided by unknown subjects.

This morning the Laboratory received hand printing of [redacted] from Boston in connection with the investigation of the breaking and entering of the Resident Agency at Media, Pennsylvania. [redacted] is presently out on bond after being indicted for contempt for refusing to testify before the Federal Grand Jury at Harrisburg, Pennsylvania, after he was granted immunity.

Known hand printing submitted in connection with the investigation of the Media Resident Agency breaking and entering case has been compared with unidentified hand printing in the East Coast Conspiracy Case. As a result of such comparison the Laboratory has determined that [redacted] prepared the hand printing on a diagram of a Selective Service Office in Philadelphia which was broken into on 2/7/70.

Philadelphia and other interested offices are being advised of the identification by teletype.

Examination requested: **Document - Fingerprint - Toolmarks**

Remarks:

Enclosed for Boston are two copies of the prints obtained from the roll of film, K4840.

For the information of New York, the identifying characteristics of the questioned typewriting on Q50 are so limited that it is doubtful these impressions could be identified with any particular typewriter.

The results of the staple examination, the latent fingerprint examination and the return of the submitted evidence will be handled separately.

Specimens received 5-12-71

- K4840 Prints from roll of film containing documents from "RESIST"
- K4841 Three sheets of pink paper bearing staples
- K4842 Two sheets of carbon paper and two sheets of white paper bearing typewriter impressions from IBM typewriters

Result of examination:

The IBM Prestige elite style of type, K4842, is the same style of type used to prepare Q50 in the GARDBURG - ATTEMPT case. However, due to the lack of sufficient identifying characteristics, it was not possible to determine whether one typewriter was used in the preparation of these specimens.

It was determined that the typewriting, K4842, was not prepared with any of the questioned typewriters used to prepare the "Citizens Commission to Investigate the FBI" press releases and envelopes previously submitted in this case.

The photographs, K4840, are not sufficiently legible for adequate typewriting comparison purposes.

The submitted evidence will be returned separately. Photographs are retained.

Re: MEDBURG;

Date: May 3, 1971
FBI File No. 52-94527
Lab. No. D-710429069 LC

Specimens received 4/29/71

K4570 Application for Employment form (two-page), hand
printed letter dated 2/14/71, and copy of Monthly
Supervision Report form, all bearing hand printing
of [redacted]

b6
b7C

Result of examination:

It was determined that the hand printing on Q208;
the diagram in the EASTCON case, excluding the handwriting at
the top of the diagram, was prepared by the person who prepared
the hand printing on K4570, exemplars in MEDBURG.

Due to the presence of characteristics in the questioned
hand printing on Q48 and Q49 in the MEDBURG case, which could not
be explained on the basis of the available known hand printing,
K4570, it could not be determined whether the questioned material
was or was not prepared by the writer of K4570.

The submitted evidence is returned herewith. Photographs
are retained. 4

GENERAL INVESTIGATIVE DIVISION

Attached relates to investigation by the Baltimore Division pertaining to the Media RA burglary to locate and interview persons who attended a meeting at the Church of the Pilgrims, Washington, D. C., 3/28/71, wherein an alleged discussion was held concerning distribution of Xerox FBI documents. [redacted]

[redacted] was identified as a participant at this meeting and interviewed 4/27/71 by Special Agents, Silver Spring RA. After interview initiated, it was learned [redacted] was 16. She was advised that Agents would wait for the arrival of her parents before continuing interview. [redacted] declined offer and was fully cooperative during interview.

On 4/28/71, [redacted] telephonically contacted Senior RA, Silver Spring, Maryland, and complained that Agents should not have interviewed his daughter when she was alone advising he was furious and intended to write to his Senator and Congressman as he felt his daughter was being watched and harassed by the FBI. No other investigation has been conducted regarding the [redacted] family and Senior RA advised [redacted] that daughter was offered opportunity to be interviewed in presence of parents but she declined.

Enclosed herewith for the Bureau are six copies of "Chart B," a compact chart noting the points of comparison or similarity of MO between draft board and industrial break-ins, break-in of Rochester RA, and break-in at the Media RA. Two copies each are being designated for Divisions five, six, and nine of the Bureau. Two copies of enclosed chart are being enclosed for each division receiving copies of this airtel. Attached to each copy of the chart is an identification key identifying numbers at top of Chart B with specific break-in. U

Said chart was prepared after completion of a detailed chart, Chart A, which provides the basic details of the said break-ins but is too bulky for dissemination. These two charts were prepared in connection with the review of draft board and industrial break-ins and break-ins of the Rochester and Media RAs in the Eastern USA in order to develop points of similarity between the draft board and industrial break-ins and the break-in at the Media RA. U

Referenced report contains a narrative regarding findings of points of similarities and MO between the draft board and industrial break-ins, the break-in at the Rochester RA, and the break-in at the Media RA. The main points of similarity have been listed in referenced report and subjects of those break-ins have been listed where deemed pertinent. U

Enclosed chart will be of assistance in conducting interviews of MEDBURG suspects and in conducting other MEDBURG investigation as well as in connection with investigations relating to draft board break-ins and will serve as a ready and quick MO reference point for these matters. U

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED

DATE 6-1-84 BY SP5 BJK/APPEND 80-1227/14

The Director has indicated that he wants (1) to promptly stop use of Xerox in all parts of the Bureau and (2) to know the date when all Xerox products in the FBI will be eliminated. U

As you know, there is a 15-day cancellation notice required for all Xerox equipment now rented by the Bureau. The problem is that should the Xerox equipment be taken out before a competitive machine is received and installed, our copying and duplicating operations would be out of business. This would prevent getting out reports, memoranda and like communications. Delivery of competitive equipment is unique to each distribution point with some deliveries taking as long as 120 days. U

The Bureau has relied heavily on Xerox copying equipment because it is a dry process, uses regular paper and is fast. The Identification Division used a Smith Corona Marchant (SCM) copier, which uses sensitized paper, on a trial basis but had it removed because operator time doubled, reproduced pages came out damp and had a tendency to stick together, stamp pad ink would not adhere to reproduced pages, sensitized paper tended to deteriorate unless maintained under controlled conditions and the supply trays only hold 500 sheets of paper. There were other disadvantages too in that the machine was low which caused employees to lean at an uncomfortable angle, the counter had to be reset after each original run and 20 copies was the maximum number that could be run at a time. U

Xerox is the only copier now on General Services Administration (GSA) schedule which does not require the use of sensitized paper. This paper can only be obtained through established channels and, therefore, is not available on weekends or during the night should a major disaster develop. The emulsion on sensitized paper marks easily with paper clips, fingernails, rings or other hard objects and because it is sensitized on only one side, both sides cannot be used. U

The Addressograph Multigraph Corporation has a copier duplicator

Memorandum to Mr. Mohr
Re: Xerox Equipment

(AMCD) on the market which is now in use in two of our offices. Because of the costs involved, one through five copies should not be made on this machine but for runs over six, it is competitive with Xerox. Because of this, these offices also require a copying machine to handle the short-run jobs. ✓

In the past, in addition to the above makes, the Bureau has utilized Apeco Autostat and Thermofax copier equipment but with the introduction of Xerox on the market, which is far superior in efficiency, economy, and adaptability to our needs, these were discontinued as they required special sensitized-type paper and the quality of the product was inconsistent and the permanency of the record was short lived. We have also tested copier equipment manufactured by Bruning, Underwood-Olivetti, Remington-Rand, Minnesota Mining and Manufacturing (3M), Pitney Bowes, Kodak, A. B. Dick, Dennison, Royfax, and Saxon. All were found to be unsatisfactory insofar as the Bureau's needs were concerned since they require again special sensitized paper, a wet developer, and the emulsion was found to smear and not take ink. ✓

In addition to the above general disadvantages in using other than Xerox equipment, the Identification Division has just perfected a system whereby it copies a 3" x 5" portion of the fingerprint card. This system uses Xerox equipment and at this time there is no known way of handling this volume of work at anywhere near the speed and cost as provided by the Xerox method. ✓

The Bureau has 64 Xerox telecopier machines throughout the field and Seat of Government at the present time at an annual rental of \$38 per month for a total monthly cost of \$2432. The Director approved installing one of these machines in each field office with an annual saving of about \$17,000 after a 90-day trial period in 3 offices. A separate memorandum was prepared to you from Mr. Tavel under date of 4-21-71 concerning this type of equipment. ✓

The following 33 Xerox copiers are Bureau owned as a result of purchase in 1966: 14 Model 813s (8 in field offices and 6 at Seat of Government(SOG) and 19 Model 914s (5 in field offices and 14 at SOG). ✓

The following 97 machines are currently being rented: ✓

Model 660	-	4 at SOG	8 in field
Model 914	-	1 at SOG	2 in field
Model 720	-	6 at SOG	8 in field
Model 2400	-	5 at SOG	8 in field
Model 3600	-	13 at SOG	38 in field
Model 7000	-	3 at SOG	

Memorandum to Mr. Mohr
Re: Xerox Equipment

Rental cost for above equipment is averaging \$69,090 per month thus far this fiscal year. U

International Business Machines (IBM) has only one model -- Model 8600, which rents at \$215 per month for the first 5,000 copies per month and 2.03 cents per copy thereafter. The purchase price for this piece of equipment would be \$19,600. This equipment is not on GSA's Federal Schedule of supplies as of this time. In addition, delivery would require a minimum of eight weeks. It is pointed out to obtain this model from IBM would require we seek clearance from GSA to acquire equipment which would require submitting justification in the way of comparative costs and the like. We could not use as justification the refusal of the Xerox Company to direct its agents to obtain sample copies from all Xerox machines that are suspect in connection with the MEDBURG special. The Assistant Director, Legal Counsel has advised that the refusal of the Xerox Company to direct its agents to obtain sample copies from all Xerox machines which are or may be suspect is not such conduct as amounts to obstruction of justice or compounding a felony. It is comparable only to any other citizen's failure to cooperate in general. It is also pointed out before we can go to GSA in connection with purchase of this type, it is necessary that we obtain approval of the Department's Administrative Division to do so. U

Attached is an item appearing in the "Washington Post", page A-7 of April 18, 1971, issue reporting that Peter McColough, president and chief executive officer of Xerox disputed earlier reports that Xerox would not provide the FBI with samples of copy images in connection with our investigation of the break-in of our Media, Pennsylvania, Resident Agency. President McColough stated, "Despite public reports to the contrary, Xerox is cooperating fully with the FBI as we would with any government law enforcement agency now and in the future. U

RECOMMENDATIONS: Because the president of Xerox has publicly announced that his company is cooperating fully with the FBI and the Legal Department of Xerox has also expressed this attitude and because Xerox equipment is better suited to our operations than any other equipment now available, it is recommended that: U

1. Existing Xerox equipment be retained until competitive equipment using regular paper becomes available. U

Memorandum to Mr. Mohr
Re: Xerox Equipment

RECOMMENDATIONS (cont.):

2. The Administrative Division follow closely with the copying industry to be aware of any equipment other than Xerox that will handle our particular requirements. ✓

ADDENDUM NPC:pmd 4-22-71:

The Director has instructed on the attached memorandum from Mr. Tavel to Mr. Mohr 4-21-71, captioned, "Use of Facsimile Equipment,": "I rescind my original approval and want no Xerox equipment used in Bureau. Terminate use of such rentals at end of the rental period which I understand is not over 30 days." A letter notifying the Xerox Corporation in compliance with the Director's instructions is being prepared; however, in good conscience the writer feels that such action is a mistake and will subject the Bureau to much unnecessary inquiry and criticism. ✓

Xerox Aiding FBI Search For Thieves

The Xerox Corp. said yesterday it is "cooperating fully" with the FBI in the search for the Xerox machines used to copy FBI documents stolen in the March 8 raid on the FBI's Media, Pa., office.

Peter McCollough, president and chief executive officer of Xerox, disputed earlier reports that Xerox would not provide the FBI with samples of copy images produced by the type machines believed used by the thieves.

"Despite public reports to the contrary," McCollough, said yesterday, "Xerox is cooperating fully with the FBI as we would with any government law enforcement agency now and in the future."

Gerard Mulligan, public relations director for a Xerox division, said earlier that Xerox "... decided at the very highest level" not to provide laboratory samples of the copy images. He said lists of customers who lease the 660-series machines, the kind used to copy the documents, had been given to the FBI.

Since the night of the theft, copies of 31 different documents have been sent to newsmen and congressmen by a group calling itself the Citizens Commission to Investigate the FBI.

Attached for the Director's signature is a letter to the Xerox Corporation concerning all Xerox copiers and telecopiers we now have on rental, both at Seat of Government and throughout the field. The letter should be received by Xerox representatives locally Monday, April 26, and thus the equipment should be removed from various offices and divisions here at Seat of Government commencing Tuesday, May 11, except for one copier in the Identification Division, the contract for which has a 30-day cancellation clause and its removal therefore would be May 26, 1971.

Undoubtedly the local Xerox representatives upon receipt of this communication will be inquiring as to the reason therefor. It is proposed that in response to inquiry that they be informed this action is being taken in view of the statements made to the press by certain of the officials of that company in connection with our investigation of the theft of documents from our Media, Pennsylvania, Resident Agency, copies of which were made on Xerox equipment. Likewise it is proposed that when inquiries are received from other Government agencies such as General Services Administration, General Accounting Office or members of Congress that the same response be furnished.

We will no doubt be deluged with inquiries from Xerox representatives in the field as well as locally and from members of Congress in the same manner we experienced such inquiries when we discontinued the handling of non-Federal applicant type fingerprints by the Identification Division.

Additionally, there are going to be delays in the making of copies both here at the Seat of Government and in the field until other copying equipment can be obtained. In connection with the scheduled delivery of other equipment, it will take anywhere from 60 to 120 days.

[redacted] the local representative with whom we deal in Xerox equipment, telephonically contacted Procurement Officer [redacted] on the evening of 4-22-71 and stated that he wished to assure the Bureau that despite what certain officials in Xerox have stated in the paper that the Bureau could rely 100 percent on the continued cooperation of he and the local manager,

Memo Callahan to Mohr
Re: XEROX EQUIPMENT

ADDENDUM: TEB:jo 4/23/71

I believe I am fully aware of the action taken by Xerox Corporation and of the announcements made by certain officials of that company about Xerox's policy and actions. I certainly do not condone anything any Xerox officials have done and, I own no stock in Xerox Company and certainly hold no brief for them. However, I have a great regard for the well-being and prestige of Mr. Hoover and the Bureau. Because of this, I feel I have a duty to say things that I feel deeply and of which I am convinced, even though my opinion may be in the minority. It is my opinion that if we take the action recommended in this memorandum, we will find a very great wave of reaction developing which can seriously harm the Bureau. I can foresee the Xerox Company taking up this matter with high Government officials and with Congressmen, which could result in a Congressional investigation or in very bad publicity in the news media. The recommended action, of course, will end up in the possession of the news media and will be widely played up by them. U

As I have said, I don't agree with the public statements made by certain representatives of the Xerox Corporation or by what these persons have announced as Xerox policy. I note, however, that the President and Chief Executive Officer of Xerox Corporation, Peter McColough, has been quoted in the press as disputing earlier reports that Xerox would not cooperate with the FBI. In view of this, I recommend that, before we take the recommended action, we go directly to President McColough and ascertain directly from him just exactly what the Xerox policy is with regard to cooperation with the FBI, that he be required to reaffirm his pledge of cooperation, and that he be additionally required to put this in a written communication to us. U

It might be
well to do this

It seems to me that everybody at the Seat of Government doesn't seem to have a clear idea of just what our relationship is with the Xerox Corporation and just what was said concerning cooperation with the FBI.

In connection with the burglary at Media, we went to the Xerox Corporation and asked for their cooperation. We asked for a list of all users of Model 660 Xerox machines. We asked the company if they would have their repair representatives as they went out to service these machines get a copy from each machine so that we could compare these copies with the material that was xeroxed by the thieves of our Media Resident Agency. This could have given us probably our best lead to the actual identity of the thieves.

A more policy on would be
[redacted] Public Relations Director for a Xerox Division (not the Public Relations Director for the Xerox Corporation), had notified the press of the request made by the Bureau and that Xerox "decided at the very highest level" not to provide laboratory samples of the copy images for comparison purposes but that the list of the subscribers to the 660 machines have been given to the FBI.

A UPI release dated 4/15/71 said that a spokesman for Xerox Corporation said a decision not to cooperate with an FBI investigation of the theft of classified documents was based on "ethical" consideration. It then went on to relate that James P. O'Neill, President of the Company's Business Products Group in Rochester, New York, turned down an FBI request for samples of the 660 copiers which Federal authorities had hoped would lead them to the machine on which papers stolen from the Bureau's Media, Pennsylvania, office on March 8 were duplicated. O'Neill was alleged to have said it was decided that although no legal responsibility was involved, the samples could not have been made "without telling our customers." This would have destroyed the value of the FBI investigation.

It should be noted that [redacted] is not the President of the Xerox Corporation; that he is just the President of a small facet in Rochester and that the President of the Xerox Corporation is Mr. Peter McCollough. He is also the Chief Executive Officer of Xerox and his offices are located

I think the Bureau would be making a serious mistake cancelling our leases with the Xerox Corporation. Our annual leases with the Xerox Corporation amounts to approximately \$50,000 a year and I am sure that if we cancel this much business with any corporation that they wouldn't sit still and not do something about it. They have direct access to the General Accounting Office, which would immediately launch an inquiry and find out why the FBI took such drastic steps to the supplier of a governmental agency. Xerox would also have access to Congress and I feel that we are not on firm ground in taking any such drastic steps as cancelling our leases with Xerox. To do so would only result in criticism of the Director and the FBI.

(FBI-XEROX)

ROCHESTER, N.Y.--A SPOKESMAN FOR XEROX CORP. SAID THURSDAY A DECISION NOT TO COOPERATE WITH AN FBI INVESTIGATION OF THE THEFT OF CLASSIFIED DOCUMENTS WAS BASED ON "ETHICAL" CONSIDERATIONS.

JAMES P. O'NEILL, PRESIDENT OF THE COMPANY'S BUSINESS PRODUCTS GROUP HERE, TURNED DOWN AN FBI REQUEST FOR SAMPLES FROM THE COMPANY'S 660 COPIERS, WHICH FEDERAL AUTHORITIES HAD HOPED WOULD LEAD THEM TO THE MACHINE ON WHICH PAPERS STOLEN FROM THE BUREAU'S MEDIA, PA., OFFICE ON MARCH 8 WERE DUPLICATED.

THE FBI HAD REQUESTED XEROX SERVICE PERSONNEL COLLECT SAMPLES FROM ALL "60" MACHINES WHILE MAKING REGULAR SERVICE CALLS.

A COMPARISON OF THE SAMPLES WITH COPIES OF THE STOLEN DOCUMENTS, THE FBI SAID, POSSIBLY WOULD ENABLE THEM TO IDENTIFY THE MACHINE, MUCH LIKE PERSONS ARE IDENTIFIED BY FINGERPRINTS.

A SPOKESMAN FOR XEROX SAID A LIST OF ALL CUSTOMERS LEASING THE 660 WAS GIVEN TO THE FBI AT THE END OF MARCH BECAUSE WE FELT WE, LIKE EVERYBODY ELSE, HAVE A RESPONSIBILITY TO COOPERATE WITH LAW ENFORCEMENT AGENCIES."

THE REQUEST FOR SAMPLES, HOWEVER, WAS REFUSED "AFTER MUCH CONSIDERATION OF THE COMPANY'S ETHICAL RESPONSIBILITY TO OUR CUSTOMERS."

THE SPOKESMAN SAID IT WAS DECIDED THAT, ALTHOUGH NO LEGAL RESPONSIBILITY WAS INVOLVED, THE SAMPLES COULD NOT HAVE BEEN MADE "WITHOUT TELLING OUR CUSTOMERS. THIS WOULD HAVE DESTROYED THE VALUE OF THE FBI INVESTIGATION."

4-15--JJ717PES

Such hypocrisy upon part of Xerox. They care nothing about burglary of media.

I want to stop promptly use of Xerox in all of Bureau.

Dear Sir,

I want to register a strong and formal complaint against FBI tactics. I would like a reply.

On March 28th at the Church of the Pilgrims (2201 P St., N.W.) there was an afternoon meeting to plan a religiously oriented demonstration. (Please see the copy of the flyer enclosed.) In our church, word of the meeting was passed to us, and my 16 year old daughter decided to attend. I drove her to the meeting.

Some days after the demonstration, we were told that there were papers (copied, presented, circulated, or originals -- I don't know what) which were related to the FBI papers stolen from somewhere in Pennsylvania. We were told that people who had been at the planning meeting might be interviewed by the FBI.

On April 27th, between 4:00 and 5:30 PM, two FBI agents did come to our house to speak to our daughter. She was alone, except for two younger siblings (12 and 7 years old) for whom she was responsible.

One agent was a [redacted] his telephone number is [redacted]. His superior is a [redacted] (?); his phone number is the same. I do not know the other agent's name.

The men explained to my daughter who they were and why they were there. At the door, she said, "I am not supposed to let you in." (This is a family rule: our children are not allowed to let any strangers in when neither my wife nor I am present.) She also told them that she would not conjecture nor say anything to implicate herself. Then she invited them in. They entered and showed their credentials as they did so. They did not apprise her of her rights. More than once they told her that she should not believe any bad things she might have heard about FBI surveillance, investigations, and the like.

At all times, the men were polite. As I can ascertain, the questioning went forward as I would have allowed it to, had I been present, though I would have asked for an outline of my rights and would have asked them to stop their selling of the FBI. My daughter was not aware of the fact that she could have at least made these requests.

I called [redacted] but spoke to [redacted]. He was courteous; I, being angry, was not. He contended that potential unpleasantness was cut in half because two agents were present (one chaperoning the other, I suppose). It is just as logical to contend that there is twice the danger. More realistically, the fact remains that a 16-year old girl was questioned alone by two trained adult men, and in this I see real potential danger.

Our highest loyalty is to God; we are Methodist missionaries. Though we do not like the present war policy, we are loyal Americans. We would willingly cooperate in any proper investigation conducted by proper investigators.

We think that there is more freedom in this country than in any other. But what kind of a country is it where two adult men can come into my home when I am not present and without my knowledge? I point out to you that a Sears and Roebuck repairman knows better and could not, would not do that.

I do not mind investigations, but I do mind what I think comes close to Gestapo methodology. I object to the agents entering, their not informing my daughter of her rights, their self-promotional talk, and most of all, entry when I was absent and not informing me of their coming.

I am appalled. I am frightened. I request a reply.

Very truly yours,

Your communication to Honorable John N. Mitchell,
Attorney General, enclosing a letter from [redacted]
of [redacted] concerning an interview by FBI
Agents of his daughter, [redacted] has been referred to me.

B. Apr 20, 1955

[redacted] of [redacted] was contacted
at her residence by two FBI Agents on April 27, 1971,
concerning an official investigation being conducted by
this Bureau. The Agents appropriately identified themselves
and advised [redacted] who appeared to be 18 to 20 years
of age, that she was not a suspect in an FBI investigation
but she might be able to assist us in a current investi-
gation. During the interview, it was learned that [redacted]
was 16 years of age, at which time the Agents suggested
the interview be terminated until her parents could be
present. [redacted] was cooperative and stated she had
been advised by friends that the FBI would be contacting
her and her parents had asked her if she wanted them present
during the interview and she had told them that she did not
think it was necessary. The interview was continued. U

In connection with our investigation into the burglary of the Media, Pennsylvania, Resident Agency, during which a quantity of FBI documents were stolen, investigation has centered in the Powelton area of Philadelphia, Pennsylvania. This area encompasses in part several communes which are occupied by individuals suspected of being involved in the burglary and other new left activists and dissidents.

During the morning of May 14, 1971, approximately 30 individuals calling themselves the "East Powelton Concerned Residents" appeared at the Widener Building in Philadelphia, Pennsylvania, protesting alleged harassment by Special Agents of the FBI. Two representatives of this group, when indicating they had a complaint to make, were received by the Special Agent in Charge of our Philadelphia Office. Representatives of the news media were not in attendance as originally requested by the protesting group.

Documents Show FBI Probe Plan

Associated Press

Stolen FBI records reportedly say the FBI seeks to enhance "paranoia" among activist groups in order to "set the point across that there is an FBI agent behind every mailbox."

The Washington Post reported today it had received a packet containing a cover letter, a statement from the Citizens Commission to Investigate the FBI and 14 FBI documents.

It said one document encouraged agents to step up interviews with dissenters in order to "enhance the paranoia endemic in these circles..."

"In addition, some (dissenters) will be overcome by the overwhelming personalities of the contacting agents and volunteer to tell all—perhaps on a continuing basis," the document reportedly said.

Justice Department sources reportedly said the documents are copies of files stolen in a burglary of the FBI's Media, Pa., office March 8.

Copies of the stolen documents were also sent to Sen. George McGovern, D-S.C., and Rep. Parren J. Mitchell, D-Md. Both gave the FBI their copies.

Atty. Gen. John N. Mitchell asked yesterday, that the documents not be published because "disclosure of this information could endanger the lives or cause other serious harm to persons engaged in investigative activities on behalf of the United States."

One of the documents reportedly indicated that all black student groups on college campuses were to be under FBI surveillance. The memo from Director J. Edgar Hoover was dated Nov. 4, 1970, and said in part:

"Increased campus disorders involving black students pose a definite threat to the nation's stability and security and indicate need for increase in both quality and quantity of intelligence information on... groups which are targets for influence and control by violence-prone

Black Panther party and other extremists."

Several of the documents reportedly were dossiers on individuals not cited as belonging to organizations under surveillance.

One such individual, a professor in a Philadelphia area college, was said to have been watched by the local police chief. In addition, the college switchboard operator reportedly agreed to furnish the FBI with a list of long-distance telephone calls to and from the professor.

Resist at Cambridge, Massachusetts, has been identified as the distribution point for mailing copies of stolen FBI documents. Consideration being given to obtaining search warrant for Resist Headquarters and this is being discussed with Department. Medburg handled as Special at Philadelphia under direction of SAC Roy K. Moore and presently 90 SAs assigned in addition to Moore.* Present objectives indicate no immediate change in personnel requirements and if Bureau approves, Special will continue at Philadelphia under direction of Moore. Situation will be re-evaluated in 30 days. U

GENERAL INVESTIGATIVE DIVISION

Attached sets forth summary of investigation relating to Media, Pennsylvania RA burglary.

The May 8th edition of the "Philadelphia Inquirer" carried front page article relating to stolen FBI documents. Article stated the newspaper received documents from the Citizens Commission to Investigate the FBI and analyzed investigative files as 40% - political surveillances, 5% - bank robbery investigations, 25% - murder, rape and interstate theft, 7% - draft resistance, 7% - leaving the military without permission and 1% - organized crime. Article further describes 3 documents relating to investigation of Students for a Democratic Society, the Ku Klux Klan and Jewish Defense League.

[redacted] who had previously returned 5 original documents pertaining to selective service investigations on himself to SA [redacted] of the New York Office, interviewed May 7, 1971, and advised he had received documents by mail April 28, 1971, stating he had destroyed envelope and refused to describe envelope, or furnish further information.

[redacted] who was believed to be identical with insub walk-in 2/24/71 and member of Resistance commune 3605 Hamilton St. Philadelphia, Pennsylvania, is married to [redacted] who is currently AWOL from U. S. Army and has been seen at Resistance commune under name of [redacted]. Deserter aspect being handled separately. Intensive efforts continuing to locate suspect Xerox 660 copy machine used to reproduce documents.

Result of examination:

The copies, Q240, are additional copies of Q228, previously submitted in this case. The copy, Q257, is an additional copy of Q230, previously submitted in this case.

The remaining typewriter impressions were not prepared with the typewriters used in the preparation of questioned typewriter impressions on specimens previously submitted in this case.

It was determined that the submitted hand printing on Q248, Q251 and Q259, was not prepared by the writer of the questioned hand printing on Q48 and Q49, previously submitted in this case, or the questioned material in the EASTCON case. The limited hand printing on Q252 and Q258 is not sufficiently comparable with the questioned hand printing in MEDBURG or EASTCON for meaningful comparisons to be made.

The submitted evidence will be returned separately. Photographs are retained.

Re: MEDBURG

FBI File No. 52-94527

Lab. No. D-710511008 LC

Specimens received 5/10/71

K4789 Fourteen photographs of documents bearing typewriting
and purported handwriting and hand printing of
JOHN PETER GRADY

Result of examination:

The hand printing on K4789 is not sufficiently recent
to reflect the current characteristics of the writer. Therefore,
it was not possible to determine whether the questioned hand
printing on Q48 and Q49 or the questioned material in the EASTCON
case was or was not prepared by the writer of K4789.

The typewriter impressions on the letter dated 3/8/61,
which is a part of K4789, have characteristics which were not
found in the typewriter impressions on Q185 in the MEDBURG case,
although both have the same style of type. However, due to the
time difference of the two specimens, it was not possible to
definitely eliminate the typewriter used to prepare the letter
dated 3/8/61. The other typewriter impressions, K4789, were
not prepared with the questioned typewriters used to prepare
specimens previously submitted in MEDBURG.

The submitted evidence is retained at the Bureau.
